

Scotia-Glenville Substance Abuse Prevention Task Force Community Forum

Concerned about Drug Use in our community and county?

Local headlines continue to document that the national epidemic of prescription drug and heroin abuse exists right here in the Capital Region. Too many of our families are suffering.

We can make a difference!

Evidence shows that when parents and other adults talk with youth about substance abuse, the youth are less likely to use alcohol and other drugs.

Please come and learn about the current crisis from local law enforcement, substance abuse and medical professionals. Leave with valuable resources! Share your concerns and suggestions for preventing and helping those struggling with substance abuse. *You have the opportunity to be a part of the solution!*
