NOTE: While the methods and procedures of Gildersleeve SAT have been successful in assisting students in the college admissions testing process, the effectiveness of the course is substantially dependent upon the effort, time commitment, academic potential, and personality that the student applies to the service, as well as on the testing conditions at the time and place of test administration. It is impossible, therefore, to predict the level of success any individual student may experience with the standardized tests. We reserve the right to add or delete a class time, change a class time, or use qualified substitutes if necessary.
