 - ✓ **Limited class size** for individual attention

I highly recommend Sarah Hinman and Hinman Instruction. Sarah provides differentiated, individualized instruction to meet the specific needs of every student in her class. She empowers them with information and builds their confidence, which leads to outstanding success. My son's score increased over 200 points after working with Sarah. He was accepted to his first choice school and received a hefty academic scholarship as a result.

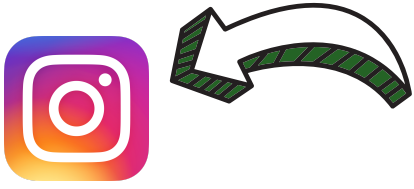

Sign up today. You won't be sorry.
