Re: Non-Resident Tuition Rates

The rates for non-resident tuition have been provided by SED on the State Aid website for our District for the 2022-2023 school year. They are as follows:

Regular Education

2022-23

- | | |
|---------------|---|
| • Grades K-6 | \$ 11,082 (down 6.41% from previous year) |
| • Grades 7-12 | \$ 9,619 (down 13.4% from previous year) |

Charges for students with disabilities who are eligible for public excess cost aid:

- | | |
|---------------|---|
| • Grades K-6 | \$43,338 (increase of 1.62% from previous year) |
| • Grades 7-12 | \$41,875 (down .1% from previous year). |

The above rates were established by SED based on projections for annual curriculum related expenditures and enrollment provided with our ST-3 report filed last September. The decreases can be attributed to our student count at the secondary level increasing, which drives the per pupil cost down. Please note that the State in calculating Special Education tuition, weighs each student at 1.41 FTE. I can provide a copy of the NRT calculation report if you deem necessary.

Please, per your approval, bring to the BOE for approval so that we may begin the process of billing outside Districts for these costs.

Thank you for your attention to this matter.
