

December 23, 2022

To whom it may concern,

I am writing to inform you of my retirement effective June 30, 2023. I will be continuing to use the district health insurance plan and dental insurance plan. I understand that my accumulated sick time buyout will be deposited into the 403b, I have had my payroll deductions going into for the past 20 plus years.

It is with mixed emotions that I write this letter. It was a great privilege to not only be a student of Scotia-Glenville but to have become a science teacher for 30 years at my alma matter. I will deeply miss my gifted colleagues and do wish I had more time to work under my science department chair.

Sincerely,

Diana Shanty
