

January 4, 2024

Dear Susan and John,

I am writing this letter to let you know that I will be retiring this year on June 30, 2024. I can honestly say that this career was the best I could have chosen, and that Scotia-Glenville was a wonderful place to work for the past 34 years.

Someone told me a long time ago, that when it was time to retire, I would know. This is the year, and with so many fine memories I will end my teaching career on June 30. I intend to continue on district health and dental insurance in retirement.

It has been a great run with so many fabulous highlights. Suffice it to say, I had a wonderful time and have made so many good friends by working with colleagues, parents and children. Through good times and bad, I have learned more than I ever imagined possible. Thank you for the opportunity.

Again, I thank you and the whole district for supporting my students and I for the past 34 years. It is a good feeling to know that I have helped children become the best they can be in a world so in need of good people. Thank-you.

Sincerely,

Peggy Gillen
