Re: CDPHP Pharmacy Changes

CDPHP has provided the district with an updated list of preferred pharmacy locations for prescriptions. As of July 1, 2025, the most notable change is that CVS will no longer be a preferred pharmacy. Enrollees affected by this change will receive a letter from CDPHP.

The following will continue to be preferred pharmacy locations:

ConnectRx	Optum Home Delivery
Food Lion	Rite Aid
Giant Foods	ShopRite
Hannaford	Stop & Shop
Kinney Drugs	Walgreens
Market 32/Price Chopper	Walmart
	Multiple independent pharmacies

If you use a non-preferred pharmacy not on the list, be assured that they are still ***in the network*** and it will cost 50% of the cost of the prescription drug.

**Resources are available for RX Coverage.**

CDPHP has an app **CDPHP ConnectRX, On the Go** for you to download to view your medications, search for cost saving alternatives and change your pharmacy.

[pharmacyconnectrx.com](http://pharmacyconnectrx.com) will provide CDPHP retail pharmacy locations.

[cdphp.com/less](http://cdphp.com/less) will provide medication information at a lower cost

Any questions can be directed to CDPHP at 1-866-28-2319 M-F 8:30-5

If you need to switch your pharmacy, call the pharmacy you would like to switch to and let them know you are transferring your prescription there. Or feel free to bring your prescription bottle to your preferred pharmacy and ask for the prescription to be transferred.
